

Gets Silver Star

SGT. GILBERT LEE HUGHES
Missing In Action

SGT. GILBERT HUGHES AWARDED SILVER STAR

WITH THE 9TH INFANTRY DIVISION IN GERMANY—Gilbert L. Hughes, of the 60th Infantry Regiment, now missing in action has been awarded the Silver Star for gallantry in action.

Advancing against strongly defended enemy positions, the forward elements of the Infantry were subjected to heavy enemy rifle, machine gun and mortar fire. Seeing his platoon leader and several squad leaders fall seriously wounded, Sgt. Hughes immediately assumed command of the assault platoon and exposing himself to the intense enemy fire, reorganized the men. Sgt. Hughes' aggressive leadership, complete disregard for personal safety, and courageous actions resulted in a successful organized withdrawal and were a credit to himself and to the Armed Forces of the United States.

Before he was inducted, Sgt. Hughes, son of Mr. and Mrs. Bill Hughes, lived at 608 Austin, Cameron, but now reside at Boerne, near San Antonio.

The Silver Star is one of the highest awards that can be made by the armed forces. To possess it is evidence of heroic action seldom attained in combat areas.

Coach Dick Young's sensational Yoemen basketball team went down before the classy Belton Tigers Saturday in the final in District 26-A basketball tournament in Temple 28 to 14.

Cameron defeated the strong Taylor Ducks 28 to 14 and slaughtered the clever Lampassas Badgers 39 to 14. This gave the Yoemen a win average of about 750 which is good in any league. Alvin Gerick alone has scored more than 300 points this season in field goals alone.

Seven Yoemen were used in the District Meet: Alvin Gerick, Gillis Graham, Billy Joe Eanes, Jimmy Marek, Earl McDonald, Howard Kennedy and Otto Gerick. The first five of them will be back next year.

H. M. AKERS BUYS HOTEL PROPERTY HERE

The boom in business property in Cameron took on momentum here Friday when H. M. Akers, stockman and business investor, purchased the Reed building known as the Cameron Hotel.

Mr. Akers said that he was buying the property as an investment. The Hotel is under lease for one year and it is understood will be so operated for the next 12 months. While Mr. Akers did not say he would make improvements to give Cameron a modern hotel, he indicated he might have something like that in mind with perhaps a central unit of business which might include other occupants of the building. On the west side of the building are two business buildings fronting south and on the north side two buildings which now house the Social Security offices of the Federal Government and the Chamber of Commerce.

Cameron's most vital business need is a hotel which will attract guests and trade for this strategically located central Texas city.

Mr. Akers who lives in an attractive ranch home on the River Road east of the city overlooking lands in the bottom, first entered business in Cameron with his brother, C. E. Akers, some years ago, building the Coca-Cola plant. They sold this business some years ago and moved to Baton Rouge, La., where they built and now own and operate a large Dr. Pepper plant.

Mr. Akers found the call of the range a dominant influence and so returned later to his cattle world. He is a livestock operator here and in Louisiana. His father was a pioneer in Oklahoma and was a member of the convention that drafted the constitution for that state and was a member of its first legislature. Mr. Akers is a veteran of World War I.

The property he has just purchased, was owned by Mrs. Reed of Bryan whose husband was a pioneer business man here.

Originally built for an opera house the building was later converted into a hotel and was operated as the Auditorium Hotel 25 years ago. For several years it has been the Cameron Hotel.

The building was constructed by the Young Men's Business League of Cameron incorporated June 14, 1899. The late J. D. Hefley, city builder was the President of the League. The corner stone was given by the late W. T. Hefley. Officers and directors of the League, all of whom are now deceased, were: Jeff D. Hefley, President; Jake M. Ralston, Vice President; Monta J. Moore, Secretary; John H. Bickett, Treasurer; T. A. Pope, W. T. Hefley, T. S. Henderson, P. O. Adams and A. P. McCord.

LT. WILLIAM C. WALLACE RECEIVES WAR CITATION

WITH U. S. SOUTH PACIFIC ARMY FORCES—Salvage work directed by First Lt. William C. Wallace, Cameron, has returned to service a 45-foot schooner written off by our armed forces as lost. The result: A commendation for the Texan, an Intelligence officer at a South Pacific base.

Lt. Wallace has been cited by Maj. Gen. Frederick Gilbreath, commanding general of the South Pacific Base Command, for "outstanding services" from February 1 to May 31, 1944—the period in which the salvage operations were carried out.

"You are highly commended as officer in charge of salvaging and repairing the schooner 'Le Phare,'" the citation said. "Working under difficult conditions, because of lack of adequate material and other facilities, and having at the outset no experience in the repair and operation of small craft, you persistently and intelligently supervised the work, which involved removing the 45-foot, 14-ton boat from a reef, where it had partially submerged, overhauling the vessel, installing bulkheads, floors, rigging, sails and cabin furnishings, and overhauling the engine and hull."

"In this undertaking you displayed untiring effort and initiative. It was largely through your energetic efforts that the craft, which had been written off as unserviceable, was salvaged, reconditioned and put into operation again."

Lt. Wallace who holds a law degree from Harvard University, was associated with his father, E. A. Wallace, here in the practice, before entering service. He was also City Attorney. He volunteered and after training period went to the Pacific where he was assigned to duty in Army Intelligence. A brother, Sgt. John Wallace, Army Air Corps, was killed in action in the early stages of the campaign in the Pacific. His Group was based in northern Australia.

"Wilson" a Film Triumph Here at Cameron Feb. 27

Heralded as the most important event in 50 years of motion picture history, Darryl F. Zanuck's Technicolor production of "Wilson" is scheduled to open Tuesday at the Cameron Theatre.

More than 2 1/2 years in the making, the film—the greatest project ever undertaken by 20th Century-Fox—has shattered all previous Hollywood production records.

Heading the largest cast ever assembled for a single motion picture (12,000 players) are: Alexander Knox as Wilson; Charles Coburn as the President's intimate friend "Professor Holmes"; Geraldine Fitzgerald as Edith Bollin Galt; Thomas Mitchell as Joseph Tumulty, Wilson's secretary; Ruth Nelson as the first Mrs. Wilson; Sir Cedric Hardwicke as Senator Henry Cabot Lodge; Vincent Price as William Gibbs McAdoo; Wm. Eythe as George Felton; and Mary Anderson as Eleanor Wilson.

The deeply moving story of an American family, set against the drama of our country's most exciting era, was directed by Henry King who was responsible for such memorable hits as "The White Sisters," "Alexander's Ragtime Band" and "The Song of Bernadette." Ace scenarist Lamar Trotti devoted two years to the preparation of the "Wilson" screenplay, during which time he travelled 30,000 miles, crisscrossing the country time, after time, to gather material dealing with Wilson and his era.

The story begins in 1909, with Wilson an inconspicuous university president. It ends twelve years later, on the day he leaves office as President of the United States. In between, it moves through the dramatic kaleidoscope of events ranging in local from a football field at Princeton, through the White House, and to the celebrated Hall of Mirrors at Versailles.

MARINES WIPING OUT JAPS ON IWO JIMA

Iwo Jima, said Monday to be the most elaborately fortified base in the world, was a flaming cauldron as United States Marines landed and were engaged in fierce battles to wipe out the Japs.

Casualties were considerable according to a communication from the headquarters of Admiral Chester W. Nimitz in Pearl Harbor. He said that progress was satisfactory and a beachhead of two and a half miles wide and a quarter mile deep had been established.

John Henry, news reporter who made the invasion aboard the flagship, of the Naval Force, broadcast Monday at noon, described the invasion of the island as the 4th and 5th Divisions of the Marines stormed ashore after the island had been torn by naval gun fire. The battleships Idaho, Tennessee and Texas, are among the ships of the line bombarding the island.

Iwo Jima is in a cold zone and Marines wore jackets as they went to the attack on the beaches. The battleship Texas, most famous ship of the class in the navy, played a heroic part in the invasion of Normandy in June 1944. Aircraft of all types were swarming over the island. Iwo Jima, said John Henry is shaped like a pork chop and seemed to be sizzling from end to end.

The Fourth Division of Marines is a veteran outfit with more combat than any other unit in the Pacific.

Action against Tokyo was still in progress. Admiral William Halsey is in Washington.

This is Mrs. G.I. Her husband is overseas. He has been in the Army for two years. She hasn't seen him in six months. She clothes herself, feeds herself and her baby, lives on \$80 a month. That is the amount of her allotment check.

Are You Driving Down the Value of Her Allotment Check?

You know how much you're making this month . . . and you know how much you're spending. Since there aren't enough goods to go around, every dollar you spend forces prices higher. Some of those dollars you have to spend, some of them you don't.

Mrs. G.I. has a small, fixed income. She's tied down by a baby and she cannot get work to supplement that monthly check. If prices rise, Mrs. G.I. feels the pinch

first—feels the pinch the most. Every time you spend a dollar carelessly, you drive down the buying power of Mrs. G.I.'s allotment check unnecessarily. And you drive down the value of your own—and everyone's—dollars.

But you help bolster the value of her dollars—and your own—when you plan your spending and your saving. Take a pencil and work out your own plan. Then you can control your spending. Then you can set up a workable method for saving, for buying War Bonds and for building up your bank account. Then you will be on the road to peacetime prosperity, will be helping to preserve the buying power of the dollar.

Help the nation's efforts to keep your living costs DOWN, the buying power of your dollar UP.

Here's the Modern Gas Heating You

VENT TO A FLUE

Proper heating requires that appliances be vented to a flue. The appliances illustrated above are types that are vented. For this reason your gas company recommends them, for only with heaters that are vented to a flue can you enjoy natural gas heat at its best. Only when appliances are vented are wall sweating and stuffy air eliminated. Plan healthful, modern heat—vented heat—for your new postwar home. Make sure there will be enough flues.

The Mark of a
Properly Heated Home

One of the identifying marks of a comfortable home is the flue showing in the roof. It is necessary to vent modern gas heaters and only with modern gas heaters do you enjoy freedom from wall sweating and stuffy air.

**How women and girls
may get wanted relief
from functional periodic pain**

Cardul is a liquid medicine which many women say has brought relief from the cramp-like agony and nervous strain of functional periodic distress. Here's how it may help:

1 Taken like a tonic, it should stimulate appetite, aid digestion, thus help build resistance for the "time" to come.

2 Started 3 days before "your time", it should help relieve pain due to purely functional periodic causes.

Try Cardul. If it helps, you'll be glad you did.

LESLIE SELL IS DEAD AT HOME IN CAMERON

(From Monday's Daily)

Leslie Sell, 4 year old son of Mr. and Mrs. Edgar Sell of Cameron, died at 1:36 a. m. Monday, February 19, 1945, following a long period of illness which became acute several days ago.

Funeral services will be held from the family residence here at 3:30 p. m. Tuesday, February 20, 1945, with interment in Oak Hill Cemetery. Rev. R. Kalkbrenner Pastor St. James Evangelical Lutheran Church, will conduct the services and the Green Funeral Home will direct arrangements.

The body will be at the residence until the funeral hour on Tuesday.

Leslie Sell was born on January 17, 1941, and was four years, one month and two days of age when he died Monday February 19, 1945. His illness a baffling involvement of the nerve system, began about 7 months ago and was first detected when the baby evidenced blindness. From this early symptom a paralysis condition developed. The faithful and devoted parents sought every possible medical aid and in July 1944, the baby was taken to physicians in Dallas and in September to Galveston. According to information available Monday the ailment from which Leslie died is a little known infection of the nerve system and treatment is accordingly limited.

In the brief time he had lived to bless the home he had received the tender care that only loving parents could give and when news came that he had passed away deep sorrow filled the hearts of many who hastened to speak words of consolation and sympathy to the bereaved family.

Leslie Sell was born in Cameron at Cameron hospital. At the time four years ago Mr. and Mrs. Sell lived at Buckholts, later moving to Cameron where Mr. Sell has since been employed. The mother is the former Miss Edith Nolte, daughter of Mr. and Mrs. O. C. Nolte of Ben Arnold, the father is the son of Edgar C. Sell of Rosebud. Leslie is the only child of Mr. and Mrs. Sell. Surviving are the parents, Mr. and Mrs. Edgar Sell; grandparents, Mr. and Mrs. O. C. Nolte of Ben Arnold and Edgar C. Sell of Rosebud.

Lt. Allen C. DuBois Tells Why American Fighter Pilots Best

AN EIGHTH AIR FORCE FIGHTER STATION, England—It isn't always the man flying the best airplane who comes out on top in air battles against the Luftwaffe, according to First Lt. Allen C. DuBois, son of Wilburn DeBois of Cameron, together with other pilots of his Eighth Air Force P-51 Mustang fighter group in England.

In almost all cases, agree the airmen, the victor is the best trained flier using the best combat equipment.

One such type of equipment now being worn by American pilots in the European Theatre of Operations is the new "G" Suit.

Used in combat since October, 1944, by the 353rd Fighter Group with which Lt. DuBois flies, the "G" Suit has been lauded by the pilots for its ability to prevent dangerous "blackout" (unconsciousness) and "gray-out" (loss of sight) ordinarily resulting from the effects of centrifugal force on the blood flow during high-speed maneuvers.

"Our pilots can now withstand almost the same degree of stress as their aircraft," declared group commander Col. Ben Rimerman of Omaha, Neb. "In combat against an enemy whose fighter craft are no less deadly than ours, that means a great deal. A tighter turn or a sharper pull-out without blackout usually means another Nazi shot down."

Forests Denuded

Indiana started out as a forest state. The best estimates indicate that about 19 1/2 million of the 23 million acres within Indiana were covered with timber. The present situation is approximately the reverse, with about 3 million acres in woodlands, much of it cut over one or more times and not capable at this time of producing forest products in the quantity which this rather large acreage would indicate.

Skin Condition

The skin can be aided in maintaining its normal, slightly acid condition by adding a few drops of fresh lemon juice to the cleansing cream and a few drops to the last rinse water after cleansing the face night and morning.

Mrs. W. J. Rice has returned from Kilgore where she attended the funeral of her brother's wife, Mrs. Wadell Pitts.

Mr. and Mrs. Walter Rachi of Rogers were business visitors Monday.

Citizens Urged Mail Applications to OPA Office in Cameron

An appeal to citizens of Milam county to mail their ration applications to the local War Price and Rationing Board was issued today by Chairman Perry, who declared:

"Too many people believe applications get faster action by personal visits to the board, but in reality this causes a heavier workload on board clerks and slows processing of applications."

"Each time a clerk has to leave important work to discuss ration problems, the processing of applications is slowed just that much more."

"With our short staff, our office can give the public much better and faster service when applications come and go by mail, and at the same time, people who use the mails for ration action will be conserving tires, gasoline and shoes—all of which are rationed because they are vital to the war effort."

Chairman Perry said that personal calls at the board take an average of ten times as long as the processing of an application received through the mail. The local board handles an estimated 20,000 applications each month, more than 1-2 of which are made through personal visits.

Broadway Hit Will Be On Screen Here Thursday

"Something For The Boys," the sensational, long-run Broadway musical that critics acclaimed as the show "that made Broadway a better place to laugh in," comes to the screen of the Cameron Theatre on Thursday in 20th Century-Fox's brilliant Technicolor filmization, starring Carmen Miranda, Michael O'Shea and Vivian Blaine with an outstanding, supporting cast.

The dance-dazzling tune-torrid film, packed with laughs and an unusual romance, boasts six new songs by famed tune-smiths Jimmy McHugh and Arnold Adamson that are already stated for hit parade popularity. All three stars as well as Perry Como, singing sensation of radio, night clubs and recordings, who makes his screen debut in the film, do the vocalizing of the tunes. Vivian Blaine ("The Cherry Blonde") is heard in the Cole Porter title song, "Something For The Boys."

Bodies of 60 Priests Found in Manila; Were Slain by the Japs

The bodies of 60 Catholic Priests have been found buried in Manila where they were slain by the Japs, it was disclosed Monday in news broadcasts from the front.

Jap atrocities are being revealed in ever increasing evidence that their war fare is without semblance of civilized character. The bodies of the Catholic Priests were found along with bodies of women and children, also slain by the Japs. The Priests were no doubt giving protection to the defenseless women and children and died in line of religious duty.

Milam Is Praised For Contributions To War Wounded

Milam county was praised Thursday at the Waco meeting of the Camp & Hospital Council.

Much of the praise is due to the efforts of Mrs. F. C. Fahrendorf who attended the meeting. Milam county is far ahead of all other counties in providing needs for hospitals.

This week is Christian church week for cookies. Mrs. Fahrendorf will deliver the cookies Saturday to McCloskey Hospital. Those who have flowers growing in their yards may

bring them to the Red Cross rooms Saturday and they will be delivered to McCloskey.

Large numbers of wounded men are arriving at the hospital each day and cookies and flowers are very essential. Next week will be Catholic week in Cameron for cookies.

The milk jars in the business district are placed to collect money for the sole purpose of raising funds for the Camp & Hospital Fund and will be used to buy the things that bring cheer and comfort to the wounded.

Trophies of a Happy Marriage

The Cuppers are about the happiest married couple in our town. Comfortable off, too, after Dee's fifty years of honest work. But their two most prized possessions are an old beer mug and an 1890 Floradora hat.

When they were first married, Dee allows he couldn't stand the hat; while Jane turned her nose up (privately) at Dee's fondness for a friendly glass of beer from time to time. But each figured it was the other's right... so they lived and let live.

And as time went by, they

realized that the hat and mug had become important symbols in their marriage—symbols of respect for each other's rights and differences of opinion.

From where I sit, a lot of marriages would be happier if there were more funny-looking hats and old beer mugs in the background. Tolerance is a mighty good foundation for living happily together.

TWO AIR FIELD TAKEN BY U S MARINES

United States Marines were in possession of one fourth of Iwo island in the volcano group 750 miles from Tokyo and had taken the principal air field in hard fighting that began Monday with invasion of that area.

Supplies and new battle equipment are being poured into the island.

Admiral Chester W. Nimitz startled the world Monday when he told the world about his ships off the island. Tuesday he made a statement naming the ships the New York, Arkansas, Texas, Idaho, Nevada and Tennessee. They are the oldest battle wagons in the navy. Admiral Nimitz said the fastest one can make a little over 20 knots. He told the Japs to come out and see for themselves. These ships said the admiral are pouring mud from 14 inch shells into the Japs on Iwo.

Fighting was terrific on Corregidor and casualties are mounting.

The Japs are holding 7 thousand hostages in Manila. The fighting there is fierce.

Tokyo said a new invasion was made on Iwo.

Action has flared up on the Western Front. The Third army under General George Patton stormed in to Germany at a new point and took a town. The 94th Division of the Third army took four towns.

The Red army was advancing on a 65 mile front and have pushed new holes in the German lines toward Berlin and Dresden. The Reds advanced in the severest kind of fight. The Berlin radio says the German situation is critical.

2 Cars Tin Cans Are Obtained for the War Effort in Cameron

Tin, vital to the war effort, was being accumulated commendably under the auspices of the local salvage committee of the War Production Board.

It has just been revealed that F. G. Blake of the Coca-Cola Bottling Company, shipped a car containing 38,000 pounds of prepared tin cans, a car load, in December 1944, and that another car is expected to be shipped in April.

Mr. Blake has just received a letter from Lewis C. Huff of the War Production Board commending him and the local committee for the good work. A special appeal is made to step up tin can collection here. Mr. Blake is commended for an outstanding contribution to the war effort.

Pfc. Hubert Baggerly Writes Critical Letter From Germany; Resents Entertainments Here For German Prisoners; Fights With Gen. Patton

Pfc. Hubert Baggerly, son of Mr. and Mrs. M. A. Baggerly of Cameron, writes to the Publisher of The Herald to say some things that many of the boys are thinking when they read about hyphenated Americans fawning over German prisoners of war. Because of the unpardonable offense which many in this country commit, we publish these letters and are glad to get them:

"I just came back from a Signal Depot where Carl Fikes is stationed. He showed me one of his latest copies of The Herald, published some time ago in December. The first thing I read, or started to read was about the entertainments for German prisoners. I thought about the flag incident at Hearne but that was only small time in comparison to this. When the people of the States start giving dances for the Krauts, that's about the last straw.

"I think that anyone who would sponsor, or attend one of them should

get a nice little trip over here and catch themselves a few of them. Maybe some of them would wake up to the fact that this isn't any picnic. I should not say much about how hard they are to catch because I am not one of the men who has to catch them. We have ten boys from home who do the job though, and a damn good one.

"We wear the insignia of the best Division in the Third Army and believe me, we are proud of it. According to these boys there is only one way to treat the Kraut and that is to pin him down with machine gun fire and burn him up with mortars.

"We gave the Jerries a nice party at Palaise, France. When the party was over they named it the valley of the dead. That's the only kind of a party they should be given until this mess is over.

"Keep the Midget rolling and my best regards to the people of Cameron."

The Allies were advancing slowly on the Western front. There was no general offensive from the west. More than 1000 allied bombers were over Germany again in widespread attacks.

Mr. and Mrs. Cecil Tindall of San Antonio have announced the arrival of a son born at the Santa Rosa Hospital in San Antonio, February 14, 1945. He weighed 8 1-2 pounds and has been named Cecil, Jr. He is the grand son of Mr. and Mrs. H. C. Tindall of Cameron.

TOKYO IS ROCKED BY U S B-29 BOMBERS

Tokyo was rocked and blasted by bombs from a large formation of B-29 superfortress bombers Saturday in what was described as the most destructive blow yet struck at the Japanese capital.

Good results were reported although no details were released on the attack.

While the bombs were over Tokyo, a 30 minute attack, an earth quake shook northern Japan and a report said that the Japanese government was being shuffled, presumably because of recent severe defeats suffered at sea and in the Philippines.

On the Western front in Germany Canadian and British forces have captured 14 towns in their slashing new offensive near the northern end of the Siegfried line, gaining five miles and reaching a point four miles from the bomb wrecked fortress city of Kleve.

In the east the Red armies were swarming across the Oder and had established a new bridgehead at Lebus, 35 miles due east of Berlin. Stettin, Baltic port in East Prussia was surrounded. Russian artillery in what was said the heaviest bombardment of the war were destroying all communications between Frankfurt and Kuestrin only a short distance from the German capital.

Mrs. Cecil H. Warner, daughter of Mrs. S. W. Cheeves, who was reared here, has been recently appointed by National Red Cross Chairman, Basil O'Connor, as a member of the National Committee of Volunteer Special Services, and reappointed on the National Committee of the Hospital Council. Mrs. Warner lives at Little Rock, Ark., and has been active in Red Cross work ever since the beginning of World War 2.

Luther Carlton has returned home from Newton Memorial Hospital.

MARTIAL LAW DECLARED IN GERMANY THURSDAY

The Pacific War was carried to the Japanese home land Thursday when a large task force of the American navy under Admiral Mitscher steamed to within carrier based plane range of the capital and began an attack which lasted for 9 hours.

At noon Friday the battle was still in progress. The American Navy Department gave no details. The Japs say that 10 carriers and 30 warships are taking part in the attack.

So far the Japanese navy has not come out to fight. This is the boldest stroke yet made against the Japs. Admiral Nimitz from his headquarters in Pearl Harbor announced late Thursday that the navy was making a heavy attack on Tokyo and vicinity and that the character of the battle was a long cherished opportunity for officers and men of the navy.

It was said that some 1500 planes bombed the Jap capital for 9 hours.

In the European theatre of war developments were coming fast. Martial law has been declared in Germany. This is proof of widespread internal trouble. Millions of Germans are fleeing the path of the Red army.

The Red army was within 15 miles of Stettin on the Baltic at noon Friday and were advancing all along the far flung eastern front.

T. P. & L. TRANSMISSION LINE ELECTRIC POWER

HELPS BUILD CITIES

The ability of towns and communities to attract new industries... to grow into real metropolitan centers of their surrounding territory... depends, in large measure, upon the type of electric power service available.

The Texas Power & Light Company understood this when it pioneered the development of transmission line electric service in Texas in 1912. Towns served by TP&L transmission lines offer to new industries the same power inducements as the largest cities... an abundant supply of dependable, low-cost electric power, adequate for any new industrial developments.

This has been demonstrated during the present war emergency, when military installations and war industries, springing up almost overnight and requiring electric power service equal to the needs of cities of 25,000 to 50,000 population, have been located in the territory served by this Company.

Just as this Company is meeting every electric power need for the War Program today in a large and busy area of Texas, so will it meet the needs of the new industrial era in this area after the war is won.

THE ALL IMPORTANT JOB NOW IS FULL SUPPORT OF EVERY PHASE OF THE WAR... which includes Buying New Bonds Regularly and Often!

The bitter experience of the past when low incomes brought restricted opportunities and too often privation should teach us the importance of Saving. The future of America is bright. Buying power is piling up. Let none overlook the opportunity now to put away for the future.

While aiding your country at war you can and should build your own safeguards by accumulating resources. America is worthy of your utmost faith and to invest in its future is to provide for your own welfare.

IWO MAY BECOME THE WAR'S BLOODIEST FIGHT

The capture of Iwo Jima, tiny island 750 miles from Tokyo, may entail the bloodiest fight of the entire war.

At noon Wednesday American losses were said numerous while Japanese losses were declared enormous. The Japanese commander defending Iwo issued orders that each Japanese soldier is expected to kill 10 Marines before he dies. Up to now the ratio has been about that figure in favor of the Marines.

The Marines had advanced to Airfield No. 2, having already taken the first airfield in bitter fighting. On the whole the picture was black for the Japs.

General Douglas MacArthur announced that 24,000 Japs have been killed in the Philippines while Americans killed are 3246.

United States submarines have sunk 25 more Japanese ships, one an aircraft carrier, one destroyer and one cruiser being included.

This brings the total to 1450 ships sunk.

The Red army has cut the German Express highway and at one point is in 34 miles of Berlin, it was announced by the Red Star, official organ of the Red army.

The Third Army under General Patton has advanced 8 miles inside Germany on a 50 mile front, reaching the Saar. Heavy air attacks were being carried out over Germany.

TOKYO ATTACK STILL IN PROGRESS SATURDAY

Corregidor, fortress in the harbor at Manila where the Americans under General Wainwright surrendered in June 1942, was under direct assault by landing forces under General MacArthur Saturday.

Iwo Jima, in the Volcano group of islands off the Japanese mainland was invaded by U. S. forces Saturday. The tiny island has supported radio warning stations to tell the Japs of approaching B-29 bombers winging to attack from their bases in the Marianas.

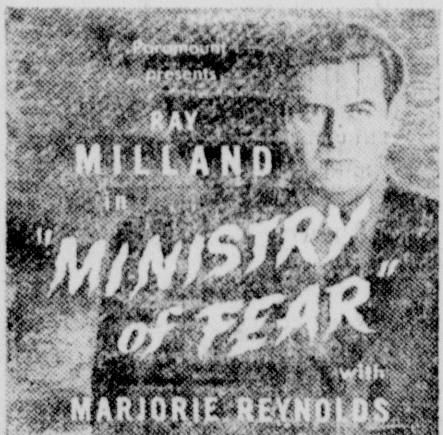

The attack on Tokyo was still in progress Saturday. The Jap press warned the people that the attack which began Thursday may presage an invasion of the home land. The Japs broadcast a claim that 5 warships, including a battleship, have been sunk since the battle began. The Japanese navy was still in hiding, afraid to come out and fight.

There had been no official U. S. statement on the bold attack on the Jap capital.

Losses were extremely light on Bataan peninsula which fell late Friday to attacking American forces.

Sensational advances by the Red army of Marshal Konev had placed his forces within 35 miles of Berlin Saturday. The Germans were offering stern resistance and violent battles were in progress.

Capt. LeRoy W. Raley Hero of Trail to Lost Outfit in Mountains

WITH SEVENTH ARMY, Jan. 24.—Five companies of Yanks—veterans of 19 months of combat—clawed their way to the top of a 1,500-foot crest in the mountains of North Alsace. Then came snow, and then a mighty Nazi artillery barrage that isolated the Yanks.

An estimated 150 enemy artillery pieces, from 75s up, zeroed their fire on the hill. The barrage bored into the foxholes on the crest and men simply vanished. It nailed trucks and armored vehicles as they shot past cross-roads on reinforcement missions.

Then the Germans began throwing in rockets. By the end of the third day, 100 of the men on the ridge had been evacuated or had withdrawn. And the enemy's fire, with his infiltrations behind our lines, had prevented further reinforcement and supply of the men still marooned.

But Lt. Col. Felix L. Sparks of Miami, Ariz., battalion Co., hammered his way up the mountain in a medium tank, firing its big guns and losing more than 5,000 rounds from his machine-guns. Col. Sparks, aided by an unnamed sergeant, rescued three of our wounded and took them down the mountain.

The day before, 2/Lt. Willis Talkington of Craig, Colo., had gone up the mountain in a light tank with blankets, rations and ammo. On the way down the tank was hit by bazooka fire. Only Talkington escaped.

Capt. LeRoy W. Raley, chaplain from Cameron, Texas, also made the trip up—three times on foot—although the battalion executive officer had forbidden him to go.

The end came in the late afternoon on Jan. 20 when two bleary-eyed shaky GIs stumbled down through the snow from the mountain top. They were the only ones who did, and the only ones who ever will. They were Pfc. Walter T. Bruce, Gainesville, Ga., and Pvt. Benjamin C. Melton, Goldsboro, N. C.

They told how the remainder of the five companies had tried to break out. There were 90 men unaccounted, and more than a hundred wounded. As they made their rush, the

ferries opened up.

This is the way it looked to Melton, who was himself knocked down four times by concussion.

"Men were being hit directly by artillery and rockets all around me. Legs and arms were flying everywhere. It was a God-awful thing."

Melton was captured by the Germans in the drive on Rome last May, but escaped later.

The above was sent to Chas. M. Hicks, County Superintendent, by Pfc. Tom Stokes, former Vocational Agriculture Teacher in Cameron schools. Pfc. Stokes, now in France is with the Military Police. The story was taken from Stars and Stripes. Stokes says he would not give 10 acres of Gause sand for the whole country over there.

The cafe is being remodeled, cleaned and made ready for the opening under new management. Mr. Thweatt said that he hopes to be open for business there by next Monday. He said that any report that a dance hall would be operated is entirely error, that the cafe will be operated exclusively with food and drinks and no dancing will be permitted.

The Moore cafe has been under the management of Bill Weideman since the late George T. Moore died. Mr. Thweatt will have a modern cafe when all improvements are completed.
